

## WILSON IGNORES TAFT'S DECISION

Dr. Wiley's Fees Still Active,  
and Dr. Rusby Not Paid for  
His Services as Chemist.

### EXPLANATION BY SECRETARY

He Says There Is Some Question  
About Dr. Rusby's Salary Since  
July 1, Owing to Technicality.

Washington, November 20.—It is about two months since President Taft gave his decision in the controversy in the Department of Agriculture, that arose from the efforts of certain opponents of Dr. Harvey W. Wiley to have the pure food champion ousted on the ground that he had connived at a violation of law in securing the appointment of Dr. H. H. Rusby, of Newark, N. J., as an expert pharmacologist in the New York laboratory of the Bureau of Chemistry.

In that decision the President threatened the plan of the anti-Wiley cabal by holding that the chief chemist had been justified in what he did. The President made some slight stricture on Dr. Rusby, but it was not calculated to interfere with the continuance of Dr. Rusby's services to the Bureau of Chemistry. Up to the time that decision was returned Dr. Rusby's salary and expense accounts had been held up by the department for several months. But despite the fact that the President settled the controversy favorably to Dr. Wiley and Dr. Rusby, the department has continued to withhold Dr. Rusby's pay and expense accounts until there is now owed to him about \$1,000 salary and another \$1,000 for expenses, not counting incidental expenses for the last five months, for which Dr. Rusby has not yet given an account.

The amounts due Dr. Rusby are practically as follows:

1.—Salary from April 1, at \$1,600 per annum.....\$1,066  
2.—Under authorization No. 74, current expenses from April 1 to July 1, about.....20  
3.—Under authorization No. 4,220, traveling expenses to and from Chattanooga, Tenn., about.....60  
4.—Under authorization to attend hearing of Personnel Committee.....20

In addition to this are the current expenses since July 1. When the effort to oust Dr. Wiley reached its climax last summer the question arose whether or not Dr. Rusby should continue his work in the New York laboratory. At that time he asked the Committee on Personnel of the department at the close of his hearing before it whether he should continue at work or not. There was a conference among the committee members, with the result that Dr. Rusby was directed to continue his duties. This instruction has not since been canceled or modified in any way, and so far as Dr. Rusby is still in force.

Before Dr. Wiley received the appointment on which the anti-Wiley cabal undertook to secure the dismissal of Dr. Wiley, he had been working on an appointment at \$9 a day. It is now held by Dr. Rusby's friends that if the appointment were illegal—which the President's decision does not make—the old appointment would then be still valid, and he should receive pay at the \$9 a day rate.

But the department is paying him nothing, and will not even reimburse him for the money he spent out of his own pocket in the case of the Coca Cola trial, to which he was sent as a government witness.

Repeated inquiry at the Department of Agriculture has failed utterly to elicit any satisfactory explanation of the reason for this withholding Dr. Rusby's pay and expenses. Secretary Wilson has explained that it was some question as to the salary since July 1 by reason of the fact that Dr. Rusby had "declined" to accept a transfer from the miscellaneous roll of the department "paid from the fund appropriated for the enforcement of the Food and Drug Act, in the Bureau of Chemistry."

Dr. Rusby was not an expert in department politics, nor was he familiar with the intricacies of appropriation bills and the shifts that have to be made by disbursing officers at times. If there was any difference between the two appointments, he was not able easily to distinguish it, and he concluded that inasmuch as his appointment had been called in question and was then the subject of controversy, he had better hold to what he had. And so he wrote to Secretary Wilson.

"Inasmuch as the legality of my employment as pharmacologist at this salary has been called in question, and inasmuch as I am not a judge of such matters and do not desire to take any

## Additional Fast Trains to and From Washington

The R., F. & P. R. R. and W. S. Ry. announce the operation of two new fast trains, with parlor cars, between Richmond and Washington, commencing Monday, November 27, on following schedule:

## CUMMINS FOUND GUILTY BY JURY

Former Tennessee Promoter Will  
Be Sentenced for Theft  
of \$140,000.

New York, November 20.—William J. Cummins, the former Tennessee promoter and recent directing head of the Carnegie Trust Company, was found guilty to-day of the theft of \$140,000 from the Nineteenth Ward Bank by the jury before which he has been on trial for the last five weeks. He was remanded to the county jail until Friday, when his counsel may put in any motions desired before sentence is pronounced.

Cummins seemed stunned by the result. His attitude throughout the trial was one of apparent assurance and cheerfulness. After the verdict was announced the prisoner remained standing in the court room, and Judge Davis thanked the jury. When told by a court attendant that he might sit down, he said huskily: "Thank you, sir; thank you," and sank heavily into his chair.

When his pedigree was taken the convicted banker's replies were scarcely less than a confession. He was led from the courtroom he seemed to have recovered some of his composure.

The jury retired at 12:30 o'clock and were out five hours.

The principal witness against Cummins was Bradley Martin, Jr., vice-president of the Nineteenth Ward Bank, who testified that the bank was put by that institution and the Van Norden Trust Company had been turned over to the Carnegie Trust Company under a trust agreement by which the money was to be used to retire Van Norden Nineteenth Ward Bank debt.

The State held that Cummins had \$140,000 of this fund checked to himself, and that he used it to bolster up the finances of his various industrial companies in the South, which the State's attorney referred to as "padding" companies. The penalty for Cummins' offense is an imprisonment term of from five to ten years as the maximum sentence. Cummins is fifty years old, and has a wife and married daughter.

### "CALL" FOR ROOSEVELT

He Is Named as Next Standard-Bearer of Republican Party.

Youngstown, O., November 20.—A call for the nomination of Theodore Roosevelt to be the standard of the Republican party in the struggle for the presidency next year was voiced at the banquet to-night of the Garfield Club of Ohio. John J. Sullivan, former United States district attorney, was the speaker. He named Roosevelt for the nomination of his party. His speech was the highlight of the annual celebration of the anniversary of the death of late President James A. Garfield, who went to Congress from this district.

### FINDS GIRL ASLEEP; CHLOROFORMS HER

Winchester, Del., November 20.—Miss Mary Leach, eighteen years old, of 212 North Harrison Street, was found by the police that while she was lying on a couch at her home, she was attacked by a strange white man, who, after chloroforming her, made a search of the house.

Miss Leach is a puzzling one to the police, for while there was a quantity of table silver, cut glass and other valuables on the premises, nothing was taken. Miss Leach was alone in the house, and the younger sister having gone for a call.

Miss Leach, who had been asleep, was aroused by hearing some one in the room, and when she started to arise, she was seized and chloroformed, quickly losing consciousness. Her plight was discovered some time later by her mother.

### SALE OF SULTAN'S JEWELS

No Such Collection of Gems Ever Before Under the Hammer.

Paris, November 20.—The sale of the jewels found at the Palace of Dildy after the death of Abdul Hamid has been fixed for November 25. They will be put up at auction at the Georges Petit gallery, and it is expected that never before has anything been seen approaching the quantity and value of the jewels that will come under the hammer.

At a rough estimate, made by a well-known expert of the Rue de la Paix, they have been valued at close upon \$7,500,000, and a French literary man who was admitted to see them lately declared that he could fancy himself in one of the fabulous treasure houses of "The Thousand and One Nights" as he saw the sparkling stones being poured out into trays before him like marbles.

## OHIO IS TO FRAME NEW CONSTITUTION

Initiative and Referendum  
Among the Problems That the  
Delegates Must Decide.

### LIQUOR QUESTION UP FIRST

Taxation Also Will Be Prominent Issue at the Convention.

Columbus, O., November 20.—The Ohio Constitutional Convention will begin January 1 in Columbus. Many important questions will be brought up, including the initiative, the referendum, the recall and liquor licenses. The last Constitutional Convention in Ohio was held in 1873-74.

A great majority of the voters who voted last year to hold a convention did not know they were doing so. In fact, the voters were tricked by a clever scheme of those anxious for the convention. When it came to taking action on the question of holding one, the Legislature revived the Longworth act, which had been repealed to enable the conventions of the two political parties to approve the proposition of holding a convention. This the party leaders agreed to do; so every elector who voted a straight ticket voted unknowingly in favor of holding the convention. The result of the vote in the State was 493,263 for the convention, and only 57,718 against.

Sixty-one of the 112 delegates are pledged in writing for the initiative and referendum with the following percentages: not more than 12 per cent. of the electors for the submission of constitutional amendments; not more than 10 per cent. for the submission of other initiative measures; and not more than 8 per cent. for referendum petitions. Several of the delegates are pledged to the principles of the initiative and referendum without specific percentages. Among these are Walter E. Brown, chairman of the Republican State Central Committee, and Dr. S. D. Pisk, president of Antioch College.

The taxation question will undoubtedly come up. Many students of the subject of taxation have been trying for years to provide for the classification of property for purposes of taxation. The matter came up during the last constitutional convention, and after extended discussion and many compromises it was left in substantially its old form.

The business interests are in favor of classification; in fact, the prime movers of the convention are the men interested in the tax amendment, which was submitted to the last Constitutional Convention and was defeated.

A determined effort will be made to get the liquor question out of the way in advance of other important matters that will come before the body. Both sides have been given a hearing through the medium of prepared statements issued by Percy Andrae, representative of the temperance interests, and Wayne B. Wheeler, superintendent of the State Anti-Saloon League. It is expected that they will represent their respective interests before the constitutional convention, and which will draft the amendment to be submitted separately to the people.

Mr. Andrae vehemently denies that it is the intention of the liberals to

## EXPOSE MADE OF "FND" IN POTASH

Recent Exploitation of Insoluble  
Rock Is Given Attention  
at Length.

Washington, November 20.—Advancing prospective investors in "potash" finds" to consult the bulletins of the Geological Survey before investing hard-earned money in "wonderful discoveries," that survey to-day issued an official bulletin calling attention to the misleading campaign recently conducted in the interest of an alleged potash discovery.

The survey is understood to refer to a find of the common, ordinary, and unavailable potash rock, alleged to exist in great quantities near Washington.

As has been pointed out by the survey, which now issues an official warning against injudicious investment in insoluble deposits, no method has ever been discovered for extracting potash from insoluble potash, the so-called rock, or insoluble potash, which is the substance of the alleged "wonderful" discovery. It is pointed out that the survey has sent experts, only to discover that the potash there was not of the available soluble sort, as it is the German potash, and hence could not be extracted cheaply, for commercial purposes.

The survey says in its bulletin: "A recent attempt to exploit by newspaper publicity an occurrence of 'potash' ore has served to call attention to two reports of the United States Geological Survey on the subject of this mineral. In one of the reports, published in 1906, the 'insoluble potash' ore had been described, and their present unavailability as commercial sources of potash by any known process plainly set forth. The other report, on 'Potash Salts, Their Uses and Occurrences in the United States,' published in 1908, published a list of the various potash-bearing materials, ranging from granite to wood shavings, and seaweed.

"Prospective investors in potash mines owe it to themselves to utilize the publications of the Geological Survey under the Interior Department and of the Bureau of Soils under the Department of Agriculture, to both of which Congress has made appropriations for the investigation of possible sources of potash."
